

CREATIVE STUDIO GOTHENBURG

Broadcast your virtual event from Creative Studio Gothenburg and communicate with your audience, no matter their location. The stylish and multi-functional design include high-res displays to showcase your message or unique branding, while the ready-to-use technology offers interactivity and live communication with your audience. Our professional staff support you in streaming the broadcast to your website, social media platforms or secured landing pages, in real-time and on-demand. Conveniences include free parking, easy public transportation and catering nearby.
