

STUDIO SERGEL

STOCKHOLM

Studio Sergel offers a complete setup for professional live broadcasts, recordings and events. In the heart of Stockholm is the Sergelpaviljongen and at the top we find this unique studio where a breathtaking view of the city makes a panoramic backdrop for your digital event or meeting. The scenography can be adapted based on each project's specific conditions and needs and up to three speaker's positions can be used for a dynamic expression.

We offer:

- A fully equipped studio - ready to use
- Full HD 1080P production
- Live stream and/or on-demand webcast
- Trouble-free functionality on all viewer devices
- Interactive communication with audience
- Live link connections to additional locations
- Professional support from start to finish
- Comfortable facilities

Only at Creative Technology:

- Full data analytics
- NEP Global connectivity
- All on one platform solution
- tecViz Software - fully owned and developed by the Creative Technology Group
